Oil Acreage In Area Sells

Pool Opener in Boyd Chapel Sector Attracts Attention as New Test On Mason Tract Drilling

Acreage assembling and royalty purchasing are reported increasing this week, following opening of a new Flippen lime 10 miles south of Hamlin in the Boyd Chapel commun-

Pool opener is the Frank Buttram No. 1 Ralph R. Carroll well, which last week pumped 289 barrels of 39.2 gravity oil on Railroad Commission test.

This week another Buttram test, located on the Mason tract three and one-half miles west of the Flippen lime pool opener, is drilling below 3,000 feet in lime and shale, it is reported.

The Buttram No. 1 Carroll is located in Section 4, League 359, Goliad County School Land.

Oil play in the Hamlin sector is not only centering in the Boyd Chapel community, but new activities are reported getting underway west of Hamlin in the Hamlin pool.

Not only the Hamlin area, but Jones County as a whole, is due considerable new drilling operations after January 1, observers state.

ASSOCIATION B.T.S. MEETING SLATED AT ANSON FRIDAY EVE MERRILL HERRING

Considerable interest is being shown this week in the Associational Baptist Training Union mass meeting that will be held Friday evening, beginning et 7:45 o'clock, in Anson.

Every Baptist Church in the Stamford sector is expected to be well represented at the conclave. Goal of Hamlin Baptist Church is 25 persons, and it is anticipated that the local church will more than exceed its goal.

As associational attendance banner will be presented to the church with the greatest atendance on hand.

Mrs. W. T. Gambill of Stamford, associational Training Union director, is especially anxious that Hamlin be well represented.

Program for Friday evening's gathering was arranged by the executive committee Sunday at a dinner given at Stamford Inn.

Hamlin Women Go To Meeting Planning Drive for H-SU Funds

Ms. Tate May and Mrs. H. R. Treadwell represented Hamlin and Rev. C. E. Dick represented Mc-Caulley last Thursday in Abilene when a meeting was held on the Greater Hardin-Simmons University but I stand a good chance of getting development program.

The day-long conference was held in the Windsor Hotel. Plans were now. completed for staging the \$1,000,000 building fund drive for H-SU. The campaign was officially launched last week with announcement of two gifts of \$25,000 each from Mrs. W. J. Behrens and O. D. Dillingham, both of Abilene.

Gifts last week will assure the early construction of the Sandefer Memorial Building and Behrens Chapel.

Rev. Dick is McCaulley chairman for the H-SU development program.

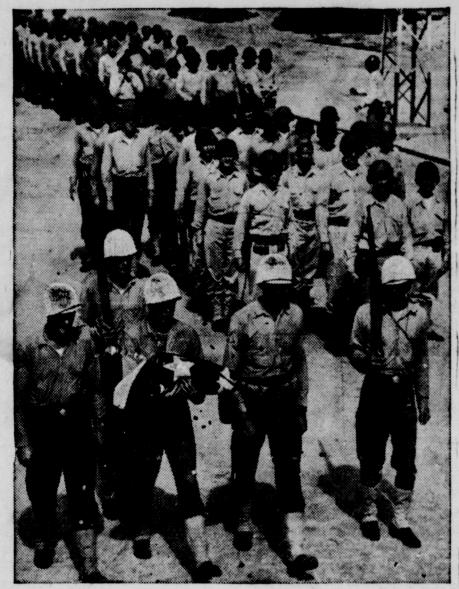

Waldo Kelsey on Way Home from Fleet Duty

Waldo W. Kelsey, fireman first class of the U.S. Navy, and husband of Mrs. Eulalea Kelsey of Hamlin, is en route home from fleet duties, the Navy Department announces.

Kelsey is one of over 4,200 high point Navy veterans whom the Magic Carpet is bringing back to the United States aboard the U.S. S. York-

250 carriers, battleships, cruisers Dallas. and attack transports in the famous Guam in mid-November.

AMERICAN COLORS REPLACE JAPAN'S

Symbolizing the setting of the Rising Sun, this U. S. National Ensign is borne carefully in the arms of a Marine as his color guard strides forward for the formal flag-raising ceremony at Yokosuka Naval Base. Puchase of war bonds by Hamlin and Jones County people will help defray the costs of occupation and thus finish the job so splendidly started by our forces.

SAYS JAPAN CITIES START REBUILDING

"We have been here since early September, and I thought I would gratory labor center closed, with a felt. write a few lines to let folks around record of 300 hands placed and 50 Hamlin know where I was," states Hamlin area farmers served for the with the nation's lawmakers in Wash-Corporal Merrill Herring, now in Northern Honshu, Japan.

"It gets pretty cold here, but winthat is a lot of snow!

"This town had a peace-time poprlation of 137,000, but a lot of the people left and went to the moun-denced this fall in the Hamlin vicintains. In late July they got their 'death warning.' They only had one Mexican nationals, however, pulled B-29 raid, but it is estimated that 80 per cent of it is destroyed.

"A lot of the buildings," Merrill continues, "were made of lumber and they burned to the ground. It was a sad mess at first, but row they have started to rebuild.

Japan . . . they have apples, big half of Texas Extension Service. nice ones. An American pilot was said to have brought the seed over from the States before the war. We were really surprised to see the apples.

"I don't know when I'll get home, home by Christmas. I hope I make it. I have been over 22 months

"We almost froze when we first came up here. We had been in New Guinea and the Philippines for so long. I must sign off, and hope to sec you all soon," Merrill concludes.

Cotton Ginnings Were 34,000 on November 14

Census report released by the De-Mrs. May is Hamlin chairman and partment of Commerce through Bowen Pope of Hamlin, special agent, reveals that Jones County cotton ginnings prior to November 14 totaled 34,000 bales.

> Cotton ginnings for the 1945 season to mid-November compare favorably with 27,671 bales of cotton from the 1944 crop ginned prior to November 14.

Cotton Land BACK FROM SERVICE 70 Per Cent To Be Upped

Indications Are That Acreage Next Year Will Be Raised-Still Looks Like a 42,000-Bale Yield

It looks like this week the Jones County 1945 cotton crop is in the

The Herald is sticking to its prediction of last week that the county will harvest around 42,000 bales of

Although official reports as of November 30 cannot be released for several days yet, it looks as though Hamlin area and Jones County is well along, grapevine has it, toward a 42,000-bale turn-out.

Approximately 90 per cent of this year's cotton crop has been taken to the gins, a reporter finds, and in these pre-Christmas days hands are busy gathering cotton as rapidly as possible.

It is true Jones County has lost a number of migratory laborers, who have already gone to South Texas, but several crews are yet in this area and are "blacking" cotton fields in a final drive of cotton bolling.

Cotton yet in the fields snaps mighty easy these December days, since the leaves have been killed and remaining bolls have dried out remarkably well.

County cotton producers report grade and staple is holding up well for this time of year. Quality, of course, is not as high as at the start of the 1945 season.

There is talk here and elsewhere of the 1946 cotton crop being larger than this year's production. This year's crop will be the smallest in 59 years.

Due to the critical shortage in cooking oils, market for cottonseed and seed products will be exception-Effective Saturday, Hamlin's mi- ally strong for several years, it is

Several measures now pending ington would, if effective, move So states W. L. Beavers, farm most of the "surplus" cotton here

Despite Food Situation Fats Still Are Needed

While the general food supply has materially improved the past few months, national stocks of fats and oils are still critically short, and Hamlin area housewives are urged to continue saving every drop of fats.

Dropping of meats, fats and oils from the point list does not mean there is a sufficient supply of industrial oils so necessary in speeding reconversion.

Hamlin and Jones County housewives are reminded that fats are Girffin this week. Lieutenant Place used in the manufacture of hundreds has recently returned from the Pa- of essential products such as syncific and is now on a terminal leave thetic rubber, ice boxes, automofrom the Marine Corps. Victory War Loan Drive Officials Point to Fact Hamlin Has Never Failed to Raise Its Quota

With Saturday set as the deadline for closing the Victory War Loan, Hamlin people breathed a prayer Wednsday that tre town will go "over the top" in the cam-

At mid-week, Hamlin had raised about 70 per cent of its \$145,200 war loan quota, drive officials re-

In the Victory War Loan cam paign Hamlin was assigned a goal of \$75,900 in Series E war bonds and \$69,300 in other bonds.

Jones County for the Victory War Loan drive was given an over-all quota of \$660,000, of which \$345,-000 was designated for purchasing Series E war bonds.

Series E bond quota for Hamlin territory is \$75,600, and middle of the week \$58,180.75 had been sold. Other series bond sales were \$78,340. Overall quota for Hamlin territory is \$145,200.

Not only Jones, but other counties of this area and the nation, are anxious to successfully close the present drive because success of this campaign will mean that thousands of American GIs now overseas will get home sooner than if no bond drive was held.

Hamlin has always raised its quota in previous war bond drives, and campaign officials saw no reason Wednesday why Hamlin should fail

CEILING PRICES ON COTTON GATHERING STILL ARE IN FORCE

The Office of Price Administration order establishing a ceiling on independent contractors' rates for services in connection with the picking and pulling of cotton and the U. S. Department of Agriculture order fixing wage ceilings for the same service are still in full force and effect in Jones and 38 other Texas counties-despite rumors to the effect all controls have been

This statment was issued Tuesday by Eugene O. Tanner, associate regional OPA price economist, in conjunction with D. A. Adams, executive officer of the Texas USDA wage board in Austin.

Tanner said OPA's controls affect crew leaders' charges for their services, whereas USDA controls wages which may be paid to laborers for picking and pulling or snapping cotton. He explains that contractors may add to the amount paid cotton pickers, provided pickers' wages do not exceed the wage ceiled not more than 15 miles from where it is ginned, and 30 cents per 100 pounds if more than 15 miles to the United States. from the gin.

EXCUSES!

EXCUSES!

×

"People who are good at making excuses are seldom good for anything else."

"An excuse is the skin of a reason stuffed full of

"And they all with one consent began to make excuse"-Jesus (Luke 14:18). People in days of the Lord Jesus Christ were just as they are now-great excuse makers! Concerning these excuse makers Jesus said "For I say unto you that none of those men that were bidden shall taste of my supper."

The people of Hamlin, the people of Jones County, the people of Texas, the people of America, have become, so far as the Lord's work is concerned, a bunch of excuse makers! Brother, Sister, fellow citizen, every excuse making son of Adam is going to hell! For your edification I want to list some of the excuses that are given me every week.

First, America's No. 1 excuse for shirking our every worthwhile duty and obligation, even the serving of God himself!

1.-I AM JUST TOO BUSY! NOT NOW, PREACH-ER, BUT LATER, I AM GOING TO-PLENTY OF TIME LATER, YOU KNOW-BUT NONE AT THE PRESENT !

"But seek ye first his kingdom and his righteousness; and all these things shall be added unto you"

"Come now ye that say, Today or tomorrow we will go into this city, and spend there, and trade, and get gain; whereas ye know not what shall be on the morrow. What is your life? For ye are a vapor that appeareth for a little time, and then vanisheth away" (James 4:13-14).

"And I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, be merry. But God said unto him, Thou foolish one, this night is thy soul required of thee; and the things which thou hast prepared, whose shall they be?" . (Luke 2:19-20).

"Therefore be ye also ready; for in an hour that ye think not the Son of man cometh' (Matthew 24:44).

"Behold, now is the acceptable time: Behold, now is the day of salvation" (II Corinthians 6:2).

SUBSCRIPTION RATES

In Jones, Fisher, Nolan, Taylor, Shackelford, Haskell and Stonewall Counties:

One Year, in advance. \$1.50 Six Months, in advance.... 85 cents

Elsewhere: \$2.00 One Year, in advance Six Months, in advance \$1.25

Entered at the Post Office at Hamlin, Texas, for transmission through the mails as Second Class Matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

A County of Cotton

Hamlin's trade zone and Jones County, despite the general trend of the nation, have turned out to be a county of cotton and harvest hands high. this fall, and every indication points to something like a 42,000-bale crop.

In these vital months of war, this county's cotton and seed crop cannot be overestimated from a standpoint of helping the nation. Farmers have been witnessing the highest prices for cotton in 17 to 18 years, and fortunately the bulk of this year's crop has been harvested before inclement weather arrived.

With cottonseed oil needed more than at any time during the past 27 years, value of this year's cottonseed crop alone is tremendous. We need cottonsed oil, first of all, to supplement our cooking oil shortage, and if any be left over there are hundreds of empty cookers waiting to process the oil for business and industry.

Lint from this year's crop alone is worth more than \$350,000, and. coupled with cash from seed, provides a crop this area can indeed be proud of.

Hamlin's Water Supply

Hamlin has, thanks to foresighted civic and business leaders, one of the most reassuring water supplies in this part of West Texas, and now that post-war reconversion is the theme of the moment, the city might ascertain what addition to present supplies can be profitably blue printed at this time.

Rarely has a city or community too much water on hand and in reserve, when town growth and expansion are talked. Rarely has a community too many facilities for fishing, swimming and boating, either.

Both farmers and ranchers in this area have taken to earthen tank construction during the past six years like hungry youngsters take to strawberry shortcake, and not only has flood danger been lessened but many tanks are being stocked with fish from government ponds.

Although we have an adequate water supply for the present, it still might be the part of wisdom to consider the future and take appropriate steps in time.

Needed: More Boy Scouts

Hamlin's Lions Club is to be heartily congratulated upon decision Tuesday to sponsor a Boy Scout troop for Hamlin. No worthier project could be started for the boys who will be our citizens, our merchants and business men of tomorrow.

Hamlin has needed an active Boy Scout troop here for a long time. The town needs to avoid ntirelyy the wave of juvenile delinquency sweeping this nation, and can do so through Boy Scout and Girl Scout troops and through Cub Packs.

As Scout officials pointed out last week, people are always careful where they put their money, and should be extremely careful where their boys and girls—the real resources of our land—are put.

If people make our boys and girls good men and women, they must have a program for youth. They must have a wholesome, challenging program for youth to meet, and we can see now all too well what the Axis nearly did because they worked with youth-in the wrong direction.

Since some 75 Hamlin boys have already indicated a desire to become Boy Scouts, there is no reason why Hamlin cannot start 1946 off with two or three troops enrolling 100 registered Boy Scouts. We need more Scouts in our community life, all along the line, and should give freely of both money and time to such a dividend paying project.

This Firecracker Shooting

We know Hamlin and America will celebrate their first peace-time Christmas in four years, but we still can see no earthly yreason for youngsters shooting fireworks all over town on Saturday nights-just because the fireworks are again appearing in local stock.

Shooting firecrackers within a town's fire zone present a fire hazard | that even the most indifferent citizen should awaken to at once.

We will have enough of noise and gaiety this Yuletide without allowing youngsters to shoot up the downtown section on Saturday night with firecrackers. Fireworks are designed to ze exploded in vacant lots and out in the country, and in certain neighboring towns the city dads are taking action to stop once and for all fireworks shooting within the downtown fire zone.

What Contemporaries Are Saying

PREVENTING DIVORCE

The divorce increase, even greater than sociologists predicted for the post-war period, has become so serious that it is now termed the nation's No. 1 legal problem. Nationally, one out of every five marriages is ending in failure. The total is up 500 per cent since the Civil War.

Recently there has been some improvement over the country through voluntary action by judges to conciliate couples. A cooling-off period is being tried. The experiment has worked wonders in Chicago, and New York's adjustment bureau has received acclaim. Locally, the announcement by Judge Jack Thornton to serve as a personal conciliator is gratifying. Experience in divorce has shown that when a couple air their differences before a judge in a tribunal the differences are aggravated. Acerbities are developed which make reonciliation virtually impossible.

It has been said that if a man and his wife, planning separation, will go first and talk to their pastor or to a friend-and talk frankly-half the divorces would be prevented. And in Texas, why not force this cooling-off period by statute? There is wisdom in such a proposal making statutory a period of six months from the filing of a divorce until the case is heard; and another six months until the decree is granted. Under present conditions, a couple can become divorced in 30 days.

This divorce problem is having serious consequences. It is at the root of 90 per cent of the vagrancy cases. In St. Louis, during the last eight months, 40 per cent of the felonies were committed by youths in the 17 and 18-year-old bracket; 80 per cent of the young offenders had parents divorced separated or deceased .- The Dallas Morning News.

ALFRED ALTUM TO BECOME PREACHER HE WRITES PARENTS

Attached to the U.S. S. Swenning, Alfred Clinton Altum, seaman second class and son of Mr. and Mrs. J. L. Altum, writes his parents that he is becoming a preacher, and that if you could explain what lies be- are proud parents of a son, James there will be one preacher son from now on in the Altum family.

"We went on liberty today," Alwork for the subs.

eyes bug out at they look down I'll tell you: from a 1,000-foot cliff into the

the family, I will try to make you earth did not trust the Lord and let

Texans Should Show Thanks for Advances In Health Conditions

The first Thanksgiving Day in this country was proclaimed for the purpose of expressing thanks inot only for the bountiful harvest which the colonists had reaped but for the sturdy health and endurance that had permitted them to survive the hardships and exposure, that first rigorous year in America.

On the occasion of this Thanksgivd was well known in this ing Day the state health officer, Dr. George W. Cox, is appealing to everv citizen of this area and Texas to give serious thought to the preservation of his own health and that of this community.

"We have much to be thankful for in that our national health level has remained high despite the nervous tension, the sacrifices, the deprivations of war," Dr. Cox stated. "Our people have maintained a remarkably high health level, and even under existing war conditions, Texas has shown a continued decline in maternal and infant deaths.

BIG TELEPHONE CONSTRUCTION PROGRAM 22

is under way

Telephone service for those waiting is first goal of \$53,000,000 project for Texas

The postwar telephone construction and improvement program already has started. It is a \$140,000,000 program—of which \$53,000,000 will be for Texas—designed, first, to catch up with the demand for service, and second, to provide telephone users with the most adequate and modern service possible in the years ahead.

Service for waiting applicants

We are making thousands of new telephones, hundreds of miles of cable and wire, and equipment to expand scores of central offices. As facilities become available, we are putting in telephones in proper turn for those waiting.

New telephone instruments are being installed as rapidly as they are delivered, and by the first of the year-or shortly thereafter-we shall be able to furnish service for those waiting in neighborhoods where there already is enough central office equipment and cable to connect their telephones.

The slower, more complicated job of building and installing central office equipment, in the many towns where it is needed, is being pushed. A lot of progress will be made by the middle of 1946, and most of this job should be completed by the end of the year.

Service will be even better

When waiting customers have been served, the job of expanding the telephone system to provide the kind and amount of service people want will get into full swing. These include individual lines and residence extensions. More equipment and the most modern devices also will be added.

Hundreds of miles of long distance lines will be placed in underground cable, and steps will be taken to introduce in some places a system by which operators can dial telephones in distant

In the next five years, we plan to instal! 165,000 new rural telephones, more than doubling the number of farm telephones in this territory.

The conversion of telephone exchanges from manual to dial telephones will be resumed.

Mobile radiotelephoning - whereby drivers of busses, trucks, and automobiles can talk through the central telephone system—will be developed.

How much? How long?

Besides the \$140,000,000 for special construction and improvement, another \$100,000,000 will be spent for the normal growth of the business. Several years will be required to complete the entire

Oil Acreage In Area Sells

Pool Opener in Boyd Chapel Sector Attracts Attention as New Test On Mason Tract Drilling

Acreage assembling and royalty purchasing are reported increasing this week, following opening of a new Flippen lime 10 miles south of Hamlin in the Boyd Chapel commun-

Pool opener is the Frank Buttram No. 1 Ralph R. Carroll well, which last week pumped 289 barrels of 39.2 gravity oil on Railroad Commission test.

This week another Buttram test, located on the Mason tract three and one-half miles west of the Flippen lime pool opener, is drilling below 3,000 feet in lime and shale, it is reported.

The Buttram No. 1 Carroll is located in Section 4, League 359, Goliad County School Land.

Oil play in the Hamlin sector is not only centering in the Boyd Chapel community, but new activities are reported getting underway west of Hamlin in the Hamlin pool.

Not only the Hamlin area, but Jones County as a whole, is due considerable new drilling operations after January 1, observers state.

ASSOCIATION B.T.S. **MEETING SLATED AT**

Considerable interest is being shown this week in the Associational Baptist Training Union mass meeting that will be held Friday evening, beginning et 7:45 o'clock, in Anson.

Every Baptist Church in the Stamford sector is expected to be well represented at the conclave. Goal of Hamlin Baptist Church is 25 persons, and it is anticipated that the local church will more than exceed its goal.

As associational attendance banner will be presented to the church with the greatest atendance on hand.

Mrs. W. T. Gambill of Stamford, associational Training Union director, is especially anxious that Hamlin be well represented.

Program for Friday evening's gathering was arranged by the executive committee Sunday at a dinner given at Stamford Inn.

Hamlin Women Go To Meeting Planning Drive for H-SU Funds

Ms. Tate May and Mrs. H. R. Treadwell represented Hamlin and Rev. C. E. Dick represented Mc-Caulley last Thursday in Abilene when a meeting was held on the Greater Hardin-Simmons University development program.

The day-long conference was held in the Windsor Hotel. Plans were now. completed for staging the \$1,000,000 building fund drive for H-SU. The campaign was officially launched last week with announcement of two gifts of \$25,000 each from Mrs. W. J. Behrens and O. D. Dillingham, both of Abilene.

Gifts last week will assure the early construction of the Sandefer Memorial Building and Behrens

Mrs. May is Hamlin chairman and Rev. Dick is McCaulley chairman for the H-SU development program.

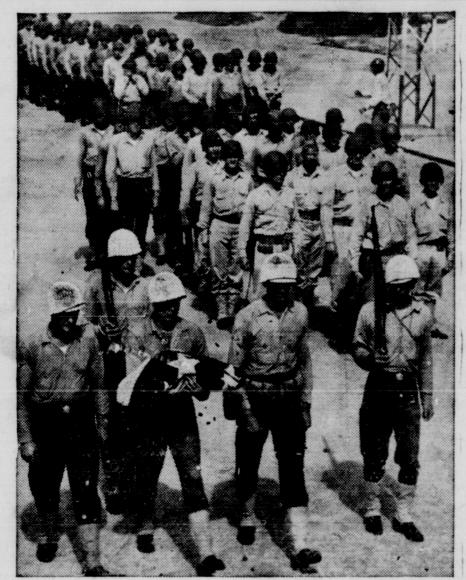

Waldo Kelsey on Way Home from Fleet Duty

Waldo W. Kelsey, fireman first class of the U. S. Navy, and husband of Mrs. Eulalea Kelsey of Hamlin, is en route home from fleet duties, the Navy Department announces.

Kelsey is one of over 4,200 high point Navy veterans whom the Magic Carpet is bringing back to the United States aboard the U.S. S. York-

The Yorktown is one of more than 250 carriers, battleships, cruisers Dallas. and attack transports in the famous Guam in mid-November.

AMERICAN COLORS REPLACE JAPAN'S

Symbolizing the setting of the Rising Sun, this U. S. National Ensign is borne carefully in the arms of a Marine as his color guard strides forward for the formal flag-raising ceremony at

Yokosuka Naval Base. Puchase of war bonds by Hamlin and Jones County people will help defray the costs of occupation and thus finish the job so splendidly started by our forces.

"We almost froze when we first came up here. We had been in New Guinea and the Philippines for so long. I must sign off, and hope to see you all soon," Merrill concludes.

Cotton Ginnings Were 34,000 on November 14

Census report released by the Department of Commerce through Bowen Pope of Hamlin, special agent, reveals that Jones County cotton ginnings prior to November 14 totaled 34,000 bales.

Cotton ginnings for the 1945 season to mid-November compare favorably with 27,671 bales of cotton from the 1944 crop ginned prior to November 14.

Cotton Land BACK FROM SERVICE 70 Per Cent To Be Upped

Indications Are That Acreage Next Year Will Be Raised-Still Looks Like a 42,000-Bale Yield

It looks like this week the Jones County 1945 cotton crop is in the

The Herald is sticking to its prediction of last week that the county will harvest around 42,000 bales of

Although official reports as of

November 30 cannot be released for several days yet, it looks as though Hamlin area and Jones County is well along, grapevine has it, toward a 42,000-bale turn-out.

Approximately 90 per cent of this year's cotton crop has been taken to the gins, a reporter finds, and in these pre-Christmas days hands are busy gathering cotton as rapidly as possible.

It is true Jones County has lost a number of migratory laborers, who have already gone to South Texas, but several crews are yet in this area and are "blacking" cotton fields in a final drive of cotton bolling.

Cotton yet in the fields snaps mighty easy these December days, since the leaves have been killed and remaining bolls have dried out remarkably well.

County cotton producers report grade and staple is holding up well for this time of year. Quality, of course, is not as high as at the start of the 1945 season.

There is talk here and eisewhere of the 1946 cotton crop being larger than this year's production. This year's crop will be the smallest in

Bonds Taken

Victory War Loan Drive Officials Point to Fact Hamlin Has Never Failed to Raise Its Quota

With Saturday set as the deadline for closing the Victory War Loan, Hamlin people breathed a prayer Wednsday that tre town will go "over the top" in the cam-

At mid-week, Hamlin had raised about 70 per cent of its \$145,200 war loan quota, drive officials re-

In the Victory War Loan cam paign Hamlin was assigned a goal of \$75,900 in Series E war bonds and \$69,300 in other bonds.

Jones County for the Victory War Loan drive was given an over-all quota of \$660,000, of which \$345,-000 was designated for purchasing Series E war bonds.

Series E bond quota for Hamlin territory is \$75,600, and middle of the week \$58,180.75 had been sold. Other series bond sales were \$78,340. Overall quota for Hamlin territory is \$145,200.

Not only Jones, but other counties of this area and the nation, are anxious to successfully close the present drive because success of this campaign will mean that thousands of American GIs now overseas will get home sooner than if no bond drive vas held.

Hamlin has always raised its quota A full-fledged Boy Scout troop for in previous war bond drives, and campaign officials saw no reason Wednesday why Hamlin should fail Hamlin Lions Club, in meeting in these crucial hours of peace.

Community reports at mid-week

CEILING PRICES ON **COTTON GATHERING** STILL ARE IN FORCE

The Office of Price Administration order establishing a ceiling on independent contractors' rates for services in connection with the picking and pulling of cotton and the U. S. Department of Agriculture order fixing wage ceilings for the same service are still in full force and effect in Jones and 38 other Texas counties-despite rumors to the effect all controls have been

This statment was issued Tuesday by Eugene O. Tanner, associate regional OPA price economist, in conjunction with D. A. Adams, executive officer of the Texas USDA wage board in Austin.

Tanner said OPA's controls affect crew leaders' charges for their services, whereas USDA controls wages which may be paid to laborers for picking and pulling or snapping cotton. He explains that contractors may add to the amount paid cotton pickers, provided pickers' wages do not exceed the wage ceiling established by USDA, 25 cents per 100 pounds if the cotton is picked not more than 15 miles from where it is ginned, and 30 cents per 100 pounds if more than 15 miles from the gin.

The order establishing maximum prices for services supplied by independent contractors is effective in the following counties: Archer, Baylor, Callahan, Childress, Coke, Collingsworth, Concho, Cottle, Coleman, Dickens, Donley, Fisher, Foard, Gray, Hall, Hardeman, Haskell, Howard, Jones, Kent, King, Knox, Martin, Mitchell, Motley, Midland, Mc-Culloch, Nolan, Runnels, Shackelford, Scurry, Stonewall, Taylor, Wilbarger, Wheeler and Young.

EXCUSES!

EXCUSES!

"People who are good at making excuses are seldom good for anything else."

"An excuse is the skin of a reason stuffed full of

"And they all with one consent began to make excuse"-Jesus (Luke 14:18). People in days of the Lord Jesus Christ were just as they are now-great excuse makers! Concerning these excuse makers Jesus said "For I say unto you that none of those men that were bidden shall taste of my supper."

The people of Hamlin, the people of Jones County, the people of Texas, the people of America, have become, so far as the Lord's work is concerned, a bunch of excuse makers! Brother, Sister, fellow citizen, every excuse making son of Adam is going to hell! For your edification I want to list some of the excuses that are given me every week.

First, America's No. 1 excuse for shirking our every worthwhile duty and obligation, even the serving of God himself!

1.—I AM JUST TOO BUSY! NOT NOW, PREACH-ER, BUT LATER, I AM GOING TO-PLENTY OF TIME LATER, YOU KNOW-BUT NONE AT THE PRESENT !

"But seek ye first his kingdom and his righteousness; and all these things shall be added unto you" (Matthew 6:33).

"Come now ye that say, Today or tomorrow we will go into this city, and spend there, and trade, and get gain; whereas ye know not what shall be on the morrow. What is your life? For ye are a vapor that appeareth for a little time, and then vanisheth away" (James 4:13-14).

"And I will say to my soul, Soul, thou hast much goods laid up for many years; take thine ease, eat, drink, be merry. But God said unto him, Thou foolish one, this night is thy soul required of thee; and the things which thou hast prepared, whose shall they be?" .

"Therefore be ye also ready; for in an hour that ye think not the Son of man cometh' (Matthew 24:44).

"Behold, now is the acceptable time: Behold, now is the day of salvation" (II Corinthians 6:2).

A County of Cotton

Hamlin's trade zone and Jones County, despite the general trend of the nation, have turned out to be a county of cotton and harvest hands this fall, and every indication points to something like a 42,000-bale crop.

In these vital months of war, this county's cotton and seed crop cannot be overestimated from a standpoint of helping the nation. Farmers have been witnessing the highest prices for cotton in 17 to 18 years, and fortunately the bulk of this year's crop has been harvested before inclement weather arrived.

With cottonseed oil needed more than at any time during the past 27 years, value of this year's cottonseed crop alone is tremendous. We need cottonsed oil, first of all, to supplement our cooking oil shortage, and if any be left over there are hundreds of empty cookers waiting to process the oil for business and industry.

Lint from this year's crop alone is worth more than \$350,000, and, coupled with cash from seed, provides a crop this area can indeed be proud of.

Hamlin's Water Supply

Hamlin has, thanks to foresighted civic and business leaders, one of the most reassuring water supplies in this part of West Texas, and now that post-war reconversion is the theme of the moment, the city might ascertain what addition to present supplies can be profitably blue printed at this time.

Rarely has a city or community too much water on hand and in reserve, when town growth and expansion are talked. Rarely has a community too many facilities for fishing, swimming and boating, either.

Both farmers and ranchers in this area have taken to earthen tank construction during the past six years like hungry youngsters take to strawberry shortcake, and not only has flood danger been lessened but many tanks are being stocked with fish from government ponds.

Although we have an adequate water supply for the present, it still might be the part of wisdom to consider the future and take appropriate steps in time.

Needed: More Boy Scouts

Hamlin's Lions Club is to be heartily congratulated upon decision Tuesday to sponsor a Boy Scout troop for Hamlin. No worthier project could be started for the boys who will be our citizens, our merchants and business men of tomorrow.

Hamlin has needed an active Boy Scout troop here for a long time. The town needs to avoid ntirelyy the wave of juvenile delinquency sweeping this nation, and can do so through Boy Scout and Girl Scout troops and through Cub Packs.

As Scout officials pointed out last week, people are always careful where they put their money, and should be extremely careful where their boys and girls-the real resources of our land-are put.

If people make our boys and girls good men and women, they must have a program for youth. They must have a wholesome, challenging program for youth to meet, and we can see now all too well what the Axis nearly did because they worked with youth-in the wrong direction.

Since some 75 Hamlin boys have already indicated a desire to become Boy Scouts, there is no reason why Hamlin cannot start 1946 off with two or three troops enrolling 100 registered Boy Scouts. We need

ALFRED ALTUM TO **BECOME PREACHER** HE WRITES PARENTS

Attached to the U.S.S. Swenning, Alfred Clinton Altum, seaman second class and son of Mr. and Mrs. J. L. Altum, writes his parents that he is becoming a preacher, and that there will be one preacher son from now on in the Altum family.

"We went on liberty today," Alfred states, "over at Camp Dealey, work for the subs.

the kids, too. I can see the girls' eyes bug out at they look down I'll tell you: from a 1,000-foot cliff into the

Texans Should Show Thanks for Advances In Health Conditions

The first Thanksgiving Day in this country was proclaimed for the purpose of expressing thanks inot only for the bountiful harvest which the colonists had reaped but for the sturdy health and endurance that had permitted them to survive the hardships and exposure, that first rigorous year in America.

On the occasion of this Thanksgiving Day the state health officer, Dr. George W. Cox, is appealing to every citizen of this area and Texas to give serious thought to the preservation of his own health and that of this community.

"We have much to be thankful for in that our national health level has remained high despite the nervous tension, the sacrifices, the deprivations of war," Dr. Cox stated. "Our people have maintained a remark-McIntosh came here in 1918 ably high health level, and even under existing war conditions, Texas has shown a continued decline in maternal and infant deaths.

"The people of Texas have reason funeral services for Mrs. to be thankful for the steadily inwere held Monday morn- creasing interest and cooperation 00 o'clock, at the First Bap- being shown in matters pertaining to rch. LIONS MEMBERS SEE SCOUT FILM WHICH TRACES BOY CYCLE

Hamlin Lions, at their Tuesday noon luncheon in the Morgan Hotel, were urged by Lions President Art Carmichael to buy all the war bonds they possibly can afford during the final push of the Victory War Loan drive. The campaign, it was announced, will close Decmber 8.

John Harrison, Boy Scout field executive, and Paul Ireland, counci executive, showed a technicolor motion picture, "Trail to Citizenship," which attracted considerable atten- accept responsibilities in conjunction

The Boy Scout film showed the three phases of the Scout program and followed a boy from the streets through the program of Scouting.

Hamlin Lions indicated a willingness, in a poll conducted among members, to sponsor a Boy Scout Paul Ireland.

Fingernail-Proof Kitchens Designed

Fingernails, Hamlin women learn vill have a hand in new kitcher

A long-time problem of kitchen designers was how to eliminate the chipping of cabinet and drawer surfaces when the housewife grasped the handles. Replacing the handle with grooves and other departures are incorporated into plans for the modern gas kitchen-which will be tailored to suit individuals-Lone Star Gas Company officials stated this week.

troop. Total of 16 Lions agreed to with Boy Scout troop organization.

Announcement was made that Harold Bonner will take a Cub Pack and this part of Scouting is already organized with officials and parents.

Club guests were Lester Morton Charles Prater, John Harrison and

BIG TELEPHONE CONSTRUCTION PROGRAM

is under way

Telephone service for those waiting is first goal of \$53,000,000 project for Texas

The postwar telephone construction and improvement program already has started. It is a \$140,000,000 program—of which \$53,000,000 will be for Texas—designed, first, to catch up with the demand for service, and second, to provide telephone users with the most adequate and modern service possible in the years ahead.

Service for waiting applicants

We are making thousands of new telephones, hundreds of miles of cable and wire, and equipment to expand scores of central offices. As facilities become available, we are putting in telephones in proper turn for those waiting.

New telephone instruments are being installed as rapidly as they are delivered, and by the first of the year-or shortly thereafter-we shall be able to furnish service for those waiting in neighborhoods where there already is enough central office equipment and cable to connect their telephones.

The slower, more complicated job of building and installing central office equipment, in the many towns where it is needed, is being pushed. A lot of progress will be made by the middle of 1946, and most of this job should be completed by the end of the year.

Service will be even better

When waiting customers have been served, the job of expanding the telephone system to provide the kind and amount of service people want will get into full swing. These include individual lines and residence extensions. More equipment and the most modern devices also will be added.

Hundreds of miles of long distance lines will be placed in underground cable, and steps will be taken to introduce in some places a system by which operators can dial telephones in distant

In the next five years, we plan to instal! 165,000 new rural telephones, more than doubling the number of farm telephones in this territory.

The conversion of telephone exchanges from manual to dial telephones will be resumed.

Mobile radiotelephoning - whereby drivers of busses, trucks, and automobiles can talk through the central telephone system-will be developed.

How much? How long?

Besides the \$140,000,000 for special construction and improvement, another \$100,000,000 will be spent for the normal growth of the business. Several years will be required to complete the entire
